

## TRAILS

## & the BCRD RECREATION LEVY

We're known for our world-class trails that we rely on, for recreation, transportation, and community connections.

**BCRD**  
**currently**  
**maintains**  
**150 miles**  
**of trails.**

### Connecting Our Community

Accessible, connected, and safe trails are the backbone of year-round recreation in Blaine County. We're known for our world-class trails that we rely on, for recreation, transportation, and community connections. BCRD currently maintains almost 150 miles of trails, with trail counters indicating trails are used more than 850,000 times annually.

Providing four season trails requires resources to maintain and improve everything from bridges and grooming to restrooms and parking. The Recreation Levy includes funding that would be used for trail improvements across the county.

#### If approved, Recreation Levy funds would be used to:

- Improve summer and winter trails, including the Wood River Trail, Quigley Trails, North Valley Trails, and Galena Trails
- Install and maintain bridges, parking areas and restrooms
- Upgrade grooming equipment to sustain a world-class Nordic experience.
- Enhance multi-use spaces

# WE LOVE BCRD

For nearly 50 years, Blaine County Recreation District (BCRD) has provided recreation opportunities supporting the health and well-being of Blaine County residents.

**Trails are used more than 850,000 times annually.**

## Maintaining Our Investment

BCRD has a strong track record of being good stewards of public dollars. The levy is structured to ensure that any new amenities and improvements are supported for the long term. That means funding for ongoing maintenance, equipment and staffing is included so our resources remain safe, clean, and accessible and affordable for generations to come.

## Listening to the Community

Our goal is to design and prioritize recreation spaces that reflect what our community members truly need and want. If the levy passes, BCRD will work with trail users to help shape future enhancements and priorities. Engagement opportunities may include citizen steering committees and other avenues for broad public input.

## Recreation Levy Disclosure

The District currently levies a tax of \$7.81 per \$100,000 of taxable assessed value annually. If approved, the Permanent Levy Override is expected to increase the annual tax levy by \$13.34 per \$100,000 of taxable assessed value per year, resulting in a total expected annual tax levy of \$21.15 per \$100,000 of taxable assessed value. The proposed levy increase will be permanent and become part of the District's new annually established base budget developed pursuant to Idaho Code § 63-802(1)(a)(i).
